PATENT

PRELIMINARY AMENDMENT

Assistant Commissioner of Patents and Trademarks

Washington, D.C. 20231

Dear Sir:

The following Preliminary Amendment is submitted as a further response to the Final Office Action dated September 18, 2002 and the Advisory Action dated March 10, 2003. Applicants previously filed, on February 18, 2003, a Response to the Final Office Action and filed a Notice of Appeal on March 17, 2003. Applicants respond to the comments in the Advisory Action, and also file concurrently herewith a request for continued examination. Accordingly, it is requested that the following remarks be considered.

REMARKS

In the present Advisory Action, the present claims are rejected by the Examiner as being unpatentable for reasons previously provided in the Office Actions of September 18, 2002 and April 9, 2002. Presently, the claims are objected to because of the use of the terms "flow-though nib-type pen", "long-wearing", and "derived." And, the claims are rejected for being obvious. These issues are discussed below. Applicants submit herewith a Supplemental Information Disclosure Statement for the references submitted and mentioned below.

I. Section 112 Issues

The specification, according to the Examiner, does not provide a written description in support of a flow-through cosmetic applicator used in Claims 15 to 18. Applicants posit however, that support is found in the specification at page 5, lines 12 to 16, and lines 23 to 25, wherein it describes a flow-through nib-type pen for applying the composition. Specifically, the flow-through nib-type pen includes, inter alia, a wick-type nib pen. Therefore, a flow-through cosmetic applicator is described with
